

# ENDO 2020

World Congress of GI Endoscopy

March 2020, Rio de Janeiro

The future  
in focus

# Message from the President

Dear colleagues,

Following the exceptional success of ENDO 2017, the first world congress of gastrointestinal endoscopy, held in Hyderabad, India, it is with great pleasure that the World Endoscopy Organization invites you to our second world congress, **ENDO 2020**.

**ENDO 2020** will be held in Rio de Janeiro, Brazil in March 2020 and will continue to address the increasing complexity and everyday issues faced by endoscopists. The congress will also recognise the technological achievements in the field of endoscopy and is the ideal platform for the global endoscopy community to establish best practices and stimulate international exchange. The Scientific Program will be all-inclusive, covering a broad range of relevant Gastroenterology, Hepatology and Oncology topics presented from the perspective of an endoscopist.

Presentations will combine basic science and clinical practice, with a spotlight on topics relevant to the Latin American region and emerging countries. We are very pleased to partner with Sociedade Brasileira de Endoscopia Digestiva (SOBED) as well as the Latin American Societies of Endoscopy/Gastroenterology to hold the next world congress in Brazil, a very dynamic and exciting country.

We look forward to you joining us at **ENDO 2020**, where we will continue to put the future in focus.

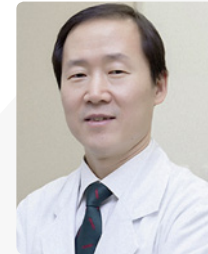

With best regards,

**Jean-Francois Rey**  
ENDO 2020 President  
WEO President

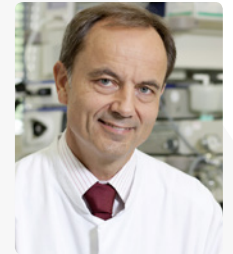

President
